## *St. Joseph's College for Women* GENERAL STATEMENT

T. JOSEPH'S is a College dedicated to the education of women after the ideals of the liberal arts. Its objectives are the advancement of scholarship, the fashioning of a Catholic woman, the service of this Republic, and the perfecting of humanity.

The College holds its charter by grant of the State of New York given in 1916. The governing power of the Corporation is vested in the Board of Trustees whose president is, ex-officio, the Bishop of Brooklyn.

The facilities and equipment are adequate to the curriculum and include, in addition to the chapel, laboratories, auditorium, gymnasium, recreation rooms, with their appurtenances, a little theatre and an outdoor theatre. The library is housed in a separate building and is open daily from 8:30 A.M. to 7:00 P.M.

The location of the College provides easy access to and from all parts and facilities of the metropolis. The affiliation of the College with various organized sources of culture provides the student with many opportunities for enriching her academic life.

Consecrated to our ideals of service, we believe that we can best achieve this by a selective policy of admission. We are convinced that the only aristocracy is that of talent, character, and labor. We have set our entrance requirements accordingly and they will be found elsewhere in the catalogue.

Although it is empowered to grant B.A. and B.S. degrees, the policy of the College has been to gear the curriculum to the liberal arts with major or minor in the field of the experimental sciences where this is desirable. The areas of concentration are limited as indicated in the departmental outlines.

The extra-curricular life of the undergraduate is not conceived as a divorced unit but as an integrating part of education. To this end the faculty has approved of a constitution for the Undergraduate Association which gives that body autonomy.

The faculty has an advisory but not a regulatory capacity. Student rule embraces not only such activities as societies and athletics but attendance and examinations.

As part of its contribution to the democratic plan of living, St. Joseph's has striven to give the student a chance to live in an academic democracy. Anyone may appeal from a decision of any authority to the Committee on Appeals which is the last court of judicature.

Our aims, cultural, religious, and democratic, will be seen implemented in the pages that follow. Anyone who desires to observe

them in operation is welcome to do so. We are anxious for the prospective student to know and evaluate us as we seek to know her.

We have endeavored to here set down our objectives and the method of attaining them. There are intangibles, however, on both sides. We try to study the student in her background and apprise ourselves of her environment. In like manner, we imagine her as a future alumna and to this end strive to make her a part of our academic world. We do not operate on the hypothesis that she is an intellectual aspirant alone, but have regard for her emotional evolution as well. We do not deal with her as an individual solely but as a social unit. We are committed to the thesis that education is living as well as learning.

The College is accredited under the

Association of Colleges and Secondary Schools of the  
Middle States and Maryland

University of the State of New York

Department of Education of the State of New York

It is a member of the

Catholic Education Association

American Council on Education

### *Entrance Examinations*

To this Committee likewise belongs the right to limit the number of students thus admitted.

An interview with the Registrar during the second year of high school is advisable. This will assist the applicant to adjust properly her high school program to meet the College requirements.

A final examination is held at the completion of the work of each semester.

The students take examinations under the administration of the Student Committee, which is under the control of the students. Entire responsibility is vested in this Committee.

A student pledges her word to her associates to be honorable and to abide by all decisions of the Committee. The Committee is held to the strictest secrecy and never reveals its deliberations unless its penalties are reversed by the Committee on Appeals.

Any member of the Committee may be impeached by a two-thirds vote of the Committee, ratified by a two-thirds vote of the student body.

The following excerpts from the Constitution of the System will reveal its spirit and its *modus operandi*:

We, the students of St. Joseph's College for Women, in the City of New York, purposing a mightier womanhood, conscious of the difficulty of its attainment, but imbued with the high courage begotten of its ideals, and convinced that only honor is honorable, do ratify and affirm this constitution of our Committee. Be it therefore resolved:

1. That we will not give, seek or receive assistance during examinations from other students or from any written or printed matter except that authorized.
2. That we will not aid in connivance at the fraudulent presence of any student.
3. That we will report all violations of the pledge.
4. That we agree to be bound by all decisions and regulations of the Committee.
5. That we pledge our loyal support to the said Court.

### Procedure of the Committee

Section 1. The Committee is hereby invested with full charge of all cases involving violations of the Honor System.

Section 2. Each Committee member and each witness shall be considered under promise of secrecy when she has subscribed her name to this constitution. If a Committee member shall breach the pledge, the punishment shall be expulsion from the Committee. Breach of the promise by a witness or accuser shall become immediately a matter of Committee action.

Section 3. In case of conviction the Committee reserves to itself full power to impose whatever penalties seem justifiable. A two-thirds vote of the Committee shall be necessary for conviction.

### Rights and Duties of Students

Section 1. The instructor shall be present at examinations for the length of time necessary for answering questions which may arise.

Section 2. Students must maintain silence during examinations.

Section 3. Members of the student body must give evidence of an infringement of the Honor System to any member of the Committee or the Committee as a whole during a meeting.

Section 4. Evidence may be given by an instructor to the chairman of the Committee. This evidence must be in writing.

Section 5. In cases of reported violations, the Committee shall summon the accused person or persons and their accusers among the

student body and shall conduct a secret investigation of the case.

Section 6. Accused persons shall be allowed witnesses in their defense.

## *Grades, Credits and Reports*

Grade	Percentage
A	90-100
B	80- 89
C	70- 79
D	60- 69
F	0- 59

Although D is passing it will be noted that it must be balanced by at least a B in order to maintain the College academic requirement. An average of 75 in all College courses is a pre-requisite for graduation.

Reports are issued semi-annually.

## *Committee on Academic Standing*

The Committee on Academic Standing is composed of three faculty members who supervise the academic program of every student that fails in any semester to maintain a 75 average. The method pursued by the Committee in helping the student to regain her academic equilibrium depends on the average the student has achieved. If the academic deficiency is slight, the Committee warns the student to reach the 75 level in her average for the following semester, or her program will be subject to limitation. If the deficiency is more serious, the Committee immediately limits the student's program and requires her to attain an average commensurate with her limited program. Failure to achieve this average results in further program limitation. If a student continues in her academic deficiencies her matriculation at St. Joseph's permanently ceases. A student, who during any semester of her college courses has come under the supervision of the Committee, remains until her graduation under its jurisdiction with respect to all requests for extra hours or for summer school courses.

## *Special Examinations*

All requests for special examinations must be directed in writing to the Committee on Academic Standing within one week of the date on which the scheduled examination took place. Students absenting themselves from any examination are expected to notify the College by telephone on the very day of that examination.

A fee for late examinations will be required by the College.

## *Honor Societies*

### Delta Epsilon Sigma

St. Joseph's is one of the founding colleges of Delta Epsilon Sigma and is headquarters for the Epsilon Chapter. This is a national organization for graduates of Catholic colleges and includes more than sixty chapters throughout the United States. Membership as set up in the original charter, is based upon scholarly attainment and evidence of high character. It embraces members of the Faculty, Alumnae and Undergraduates.

### Kappa Gamma Pi

Kappa Gamma Pi is a national honor society for the Catholic colleges for women. St. Joseph's was also one of the original members of this organization. It is required that students graduate in the highest tenth of their class in order to be eligible.

### Sigma Iota Chi

Membership in the College honor society, Sigma Iota Chi, known as General Honors, is based on academic performance as well as upon outstanding qualities of mind and character. Students who meet the specified requirements are granted membership in Sigma Iota Chi for one year. Students above the Freshman year are eligible. Any student who holds membership for three years becomes a permanent member of the Society and receives from the College the key of the Society.

### ACADEMIC QUALIFICATIONS

An academic average of 85% will be considered the minimum for eligibility. Not more than five per cent of a class may receive general honors and only grades earned at St. Joseph's will be considered in the computation of averages for honors.

### NON-ACADEMIC QUALIFICATIONS

In addition to the minimum academic qualifications for eligibility the College seeks an evaluation of the student as a well-socialized individual, possessed of qualities considered by the Faculty and her student associates to be attributes of one who in the best sense may be considered representative. Evaluation of the student is expressed through the following method: "recommended with enthusiasm", "recommended with confidence", "recommended", "not recommended", "no opportunity to observe".

In establishing the list of eligibles 60% weight is given to the academic average, 40% to the non-academic. The non-academic average is based on a 60% weight to Faculty vote, 40% to student vote. Members of the Senior Class vote on the non-academic phase. Following a study of the academic and non-academic evaluations the

Faculty Committee on honors elects to membership from the eligible group not more than five per cent of each class.

### *Degrees With Honors*

Requirements for the award of degrees with honors include a specified four year academic average and a non-academic average computed the same way as those for Sigma Iota Chi. The academic requirement for Bachelor of Arts, Cum Laude, is an average of 85% for four years; Magna Cum Laude requirement is an average of 87% for four years and a Summa Cum Laude requirement is an average of 90% for four years. Not more than five percent of a class may receive degrees with honors.

### *Departmental Honors*

1. An average of 85% will be considered the minimum in the major field and a general academic average of 80% will be required.
2. Not more than 10% of any department may receive honors, but in case there are fewer than ten in a department, one student for honors will be permitted.
3. The students will have no vote in deciding departmental honors.
4. The following non-academic points are to be considered: (1) Interest in the field, (2) Service, (3) Promoting the interest of the College in the special field.  
The speech of the candidates will also be taken into consideration by the Committee on Honors.

### *Majors and Minors*

Before the completion of the Freshman Year students who wish to teach in the Secondary Schools will signify their intention by electing the B Plan of study. At the same time they will elect major and minor fields of concentration. Courses in education which will satisfy the requirements of the State and City for teaching license will be included in this plan of study.

Those students who do not intend to prepare for teaching on the secondary level will elect a major and a minor before the completion of the Sophomore Year. In general, it is advisable that these two fields of concentrated study be related to one another.

### *Plans*

Each student must choose one of the following plans:

Plan A 128 points

Non-professional course in the liberal arts, including required courses, major, minor and electives.

Allotment of hours:

(16  $\frac{1}{4}$ , 17  $\frac{1}{4}$ ), (16  $\frac{1}{4}$ , 16  $\frac{1}{4}$ ), (16, 16), (15, 15).

Plan B and B' 132 points

Pre-professional training in the field of education in addition to the courses in the liberal arts, including required courses, major, minor and electives.

Allotment of hours for B' Plan:

(16  $\frac{1}{4}$ , 17  $\frac{1}{4}$ ), (17  $\frac{1}{4}$ , 18  $\frac{1}{4}$ ), (17, 17), (17, 12).

(Allotment of hours for B Plan will depend upon the major.)

Plan C 132 points

Pre-professional cadet work in the field elected by the student as either her major or minor in addition to the courses in the liberal arts, including required courses, major, minor and electives.

Allotment of hours:

(16  $\frac{1}{4}$ , 17  $\frac{1}{4}$ ), (17  $\frac{1}{4}$ , 18  $\frac{1}{4}$ ), (17, 17), (17, 12).

## *Attendance*

Class attendance is under the supervision of the Students' Attendance Committee which is composed of three representatives from each class. No absences are permitted but excusable failures to attend class may be appealed to this Committee at the end of the month in which they occur. They are appealable only at this time.

One point will be taken from the total credits of a student whose absence is equivalent to one-tenth of the class hours of the course.

A student whose absence exceeds one-fifth of the class hours of the course will receive F in the course. Lateness is considered a half absence.

On the recommendation of the Students' Committee, the Attendance Committee of the Faculty will consider the student's petition, and full or partial credit may be assigned for the course. The reason for the student's absence and her academic standing will be reviewed.

The rules and regulations of the Students' Attendance Committee will be posted permanently on the Students' bulletin board.

## *General Regulations*

1. Before a student may be recommended for graduation she must have satisfied the Faculty as to her character and her accomplishment in scholarship. She must also have a minimum average of 75%.
2. Of the 128 points required, 8 points must be for Religion; 7 points for Philosophy; 9 points for English; 4 points for Ethics; 4 points for Latin; 6 points for Modern Language; 6 points for Mathematics; 8 points for Science; 8 points for History; 2 points for Logic; 3 points for Social Science; 1 point for Physical Education; 2 points for Speech.

3. A major subject of 24 points must be taken in one department and a minor of 18 points in a field allied to the major. The required 8 points in Science and 6 of the nine required points in English may not be included in the points offered for a Science Major or an English major. Major and minor subjects may be chosen only with the written consent of the Head of Department in each case. The decision should be made before the completion of the Sophomore year. A student desiring to change her major or minor must obtain, on a blank furnished by the Registrar, signatures of all heads of Department affected and of the Dean.
4. A student desiring to drop a course in which she is registered may do so with the approval of the Dean during the first month, or thereafter if illness has caused the student to seek cancellation. In both cases the permission of the Dean is required. Otherwise the student will receive an F.
5. Students may take summer courses. The Committee on Studies has restricted the courses which may be taken and has limited the number. No student will receive credit for such a course unless she has received the permission of this Faculty Committee. All students desiring permission must file the blanks which are provided for the purpose within the time appointed.
6. All students are required to attain a grade of C in a comprehensive examination in their major field before graduation.
7. Extra hours may be granted to students whose general average for the preceding semester warrants it. There is also a charge, payable in advance, for all extra points.
8. Any change of program made after registration with the permission of the Dean, will incur a charge of \$2 for each course changed.
9. All students are required to attain a grade of C in a Modern Language Comprehension Examination.

## *Guidance*

Through individual interviews with a member of the Faculty Counseling Committee and the Director of Student Personnel Services, the student is assisted in understanding herself, in evaluating her potentialities and in planning her college course in the light of her past achievements, her vocational and personal interests, and her special aptitudes. The opportunities provided by the College, together with the curricular requirements, are explained to enable the student to make a normal adjustment to college life.

An important function of the Student Personnel Office is to help the student clarify her occupational aims by providing adequate information concerning opportunities in the various fields, and by

articulating college work and occupational experience through a program of cadet training in a chosen career. The Personnel Officer is also prepared to provide data concerning graduate work including opportunities for graduate scholarships.

The services of the Office of Student Personnel are available at all times to all students in the College. Every student will be interviewed in her Freshman year and as often as the needs and interests of the student demand.

### *Health Program*

Each student is given a thorough physical examination early in her first semester at the College. Serious conditions are referred to a private physician but a conference with the Health Director of the College guides the student in the remedial measures necessary for minor health deficiencies. A check-up of the record is made the semester before graduation when another complete examination is given.

The aim of the Health Program is to develop in the girl an awareness of the necessity for good health habits for the full enjoyment of an active life.

### *Religious Life*

The religious life of St. Joseph's is integrated with the ideals of the College. In this spirit, it is conceived to be the personal business of the student. The Faculty regards its function in the general scheme as one of service, not coercion.

A student committee, that is self-perpetuating, is in complete control. The clerical members of the Faculty are pleased to be guided by undergraduate opinion as expressed by the committee. This applies, of course, only to those phases of religion which are not curricular.

The students are provided with the ordinary exercises of religious devotion and enjoy, in addition, the privilege of a Holy Hour before the Blessed Sacrament in exposition every day, and on the third Wednesday of the month from six until nine P. M.

The Committee on Religion sponsors many cultural and philanthropic ventures and is, besides, trustee of the Student Relief Fund. It directs the student employment project and sponsors the Parents' Club.

### *Extra-Curricular Activities*

The principal organ of extra-curricular activity at St. Joseph's is the student-governed Undergraduate Association of which every student is a member. Student Government activities include: athletics,

music, dramatics and dancing, and the ramifications of each. Every Freshman is required to pursue at least one extra-curricular activity and all other students are encouraged to do so.

To prevent over-emphasis of the extra-curricular, to the detriment of scholastic activity, no girl is permitted to carry more than ten extra-curricular points. It will be noted that these points have no academic significance whatsoever.

Three points are given for each activity. Frequent absence or non-participation in societies is penalized by the Committee. In spite of the fact that every student must participate in an activity, no one is allowed to represent the College in any field who has failed to maintain her class standing. This is part of the contract agreed upon by the students and the Faculty.

## *Study Clubs*

Most of the departments have their own societies and some are affiliated with national organizations.

In general, membership is open to all students who are interested in the field of study and have the necessary intellectual ability. The general student body is invited to attend the lectures.

## *The Library*

315

The library of St. Joseph's College, dedicated to the memory of Sister M. Lorenzo, former Registrar and Professor of Education, is located in the large building immediately adjoining the College. Besides a collection of over 36,000 volumes and 306 current periodicals, the library lists among its holdings such pedagogical materials as phonograph recordings, pictures, maps, pamphlets, microfilms and 2 x 2 slides. By means of interlibrary loans, both faculty and students have access to the resources of various other libraries. With the exception of Saturday and Sunday, the library is open daily from 8:30 A.M. to 7:00 P.M.

The College is committed to the belief that its responsibility to its graduates is never concluded. In pursuance of this policy, it provides all the activities for the Alumnae that are offered the Undergraduates, and freely offers to the Association and its various Committees and Study Groups use of its facilities and the benefit of its assistance. The College has organized an Alumnae Week to which it invites all graduates. It offers one week of class without credit, and the success of the venture has been astonishing. The College invites the participation of the Alumnae members in "Evenings with Christ," held on the First Friday of every month.

The courses in Child Study are designed to help those who at some time will have the responsibility of dealing with children in the family, the school, or in other community agencies. It is believed that intelligent guidance springs from a knowledge of child development as well as from the wholesome attitudes a student should acquire as a result of concentration in this field. SISTER JOSEPH IMMACULATE, Ph.D.

SISTER TERESA MARIE, M.A.

SISTER DOROTHY MERCEDES, M.A.

SISTER MARY FLORENCE, M.A.

English, regarded either as skill in writing and speaking or as comprehension and appreciation of literature, is a very definite step in the process of continued growth in an individual. In English and American literature, the repository of the intellectual and spiritual history of our people, lies the power to engender and foster the loftiest ideas and ideals. To this purpose, then, literature should be regarded neither as an escape from, nor a substitute for, reality, but as one of the formative experiences of civilized life. Since this function cannot be fulfilled by isolating English from the rest of the academic world, the study of literature, as taught at St. Joseph's, is regarded not only as an essential but as an integral part of every student's intellectual development.
